

In this project I'm going to create a web-page that helps tourists to explore Tunisia in a new and easy way.

First of all I'm going to create a nav bar containing: #Discover Tunisia / # Places to go / image of flag of Tunisia (redesigned) / #See & Do / #hotels

When you click on the flag of Tunisia in the navbar it takes you to the home page.

Let's start talking what the **home page** contains:

- A carousel ( video ) of Tunisia with a search box on it
- Top destinations
- Video library
- Useful informations
- Contact us ( Form + social media links)

#### **#Discover Tunisia :**

- A carousel ( pictures of Tunisia)
- History of Tunisia
- Geography ( map + paragraph )
- Lifestyle
- Local products

#### **#Places to Go :**

- Médinas
- Beaches
- Natural places
- Restaurants

#### **# See & Do :**

- Monuments
- Museums
- Golf
- Sahara

#### **#Hotels :**

- A List with the most rated hotels ( + prices + Stars)
- A form that allow navigator to book a room and spend his holidays in Tunisia
